

## Insights

# Is Semi Graphitized Petroleum Coke Part of GPC?

Semi graphitized petroleum coke can be handled within the GPC product family, but buyers should not rely on the name alone. A workable inquiry should include fixed carbon, sulfur content, ash, moisture, volatile matter, particle size, quantity, packing, application and destination.

## — Direct Answer / 直接答案

Semi graphitized petroleum coke can be handled within the GPC product family, but buyers should not rely on the name alone. A workable inquiry should include fixed carbon, sulfur content, ash, moisture, volatile matter, particle size, quantity, packing, application and destination.

## — Procurement Context / 采购延伸

This topic should be converted into product route, specification fields, quantity, packing, destination and use case. Related material: GPC / Graphitized Petroleum Coke. Specification focus: fixed carbon, sulfur, particle size.

## — Definition

GPC means Graphitized Petroleum Coke. In Juxing Carbon public product structure, semi graphitized petroleum coke and fully graphitized petroleum coke are treated as part of the GPC family, with final supply confirmed by batch specifications and application requirements.

## — Semi Graphitized vs Fully Graphitized GPC

## — Inquiry Checklist

- Product name: GPC / Graphitized Petroleum Coke
- Preferred direction: semi graphitized or fully graphitized

- Fixed carbon, sulfur content, ash, moisture, volatile matter and nitrogen
- Particle size, quantity, packing, destination and application

## FAQ

**Is semi graphitized petroleum coke the same as GPC?**

It is handled as part of the GPC product family in public product communication. Practical purchasing should still be based on batch specifications and application needs.

**Should buyers request semi graphitized and fully graphitized material separately?**

Buyers can state the preferred direction, but the quotation still depends on fixed carbon, sulfur, ash, volatile matter, particle size, quantity and destination.

**How should semi graphitized petroleum coke be quoted?**

Provide fixed carbon, sulfur, ash, volatile matter, moisture, particle size, quantity, packing and destination under the GPC inquiry context.
